

REDUCE **WASTEFUL** SPENDING
MAXIMIZE & REPURPOSE **TAX DOLLARS**

Introduction

Account Boss was created to leverage technology to solve the pain, confusion and waste that customers experience when managing their cell phone bill.

Using the latest in internet software technology, Account Boss automates, streamlines, and enhances the re-purposing of cell usage data from the service providers to both:

- Enable the customer to have control and understanding of his cell plan and eliminate waste
- Enable Account Boss to use its cell industry experience and expertise on the customer's behalf.

What Does Account Boss Do?

Account Boss is a Mobile Account Management service that turns wasteful, expensive, and erroneous cell phone bills into clean, efficient, and cost effective bills.

The mobile industry is complex and constantly changing. We proactively manage your mobile accounts, stopping extra charges BEFORE they get way out of control.

|| Clean it up! Recoup money.

Cell phone misuse, phantom lines, and poorly coordinated plans are likely a huge HIDDEN expense for state agencies.

We save our clients THOUSANDS of dollars every month by bringing those hidden expenses to light and correcting billing mistakes, so that those funds can be reapplied where they're really needed.

Quick Facts

1. Our average client shaves nearly 25% off of their monthly bill WITHOUT reducing usable minutes or features.
2. Our average client has 2-6 lines they are paying for every month for non-existent employees (Phantom Lines). For larger agencies it can be dozens more.
3. We have city governments using our service and saving money for their cities already.

The beauty of our service is that it eliminates only waste without reducing any services or minutes.

In many cases, our clients even add on new services and extra minutes to their plans, while still saving money over their previous bills.
