

The Androids Are Coming -

There was a time when some of us wondered who would rival Apple and the I-phone. The time has arrived. The EVO has arrived. This product is red hot. Taiwanese manufacturer HTC and our domestic giant Google and Sprint have launched a device that is really ahead of its time. It runs on the Google Android operating system. This device has brought serious competition to Apple and of course the Blackberry.

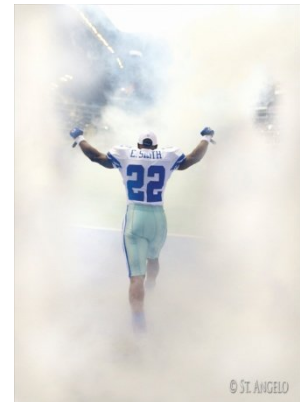

Some of the unique features include- 8 MP camera, 1 GHz snapdragon processor, a hotspot that can connect up to 8 wifi devices at once, 4G, groups for managing multiple contact lists, Android apps market, navigation/maps, TV/You Tube and the web interface is outstanding.

Unlike the I-phone that has an exclusive contract distribution strategy with ATT, the Android operating system is an open platform that is available on all 4 major carriers domestically. As a result there are roughly 200,000 Android devices being shipped each day in this country! Android market share has climbed from 9% in February to 13% in July. On the other hand, RIM and Apple are flat respectively at 41% and 25%. So Google is on the Smartphone move these days.

What is Right About Sports -

Did anyone catch Emmitt Smith being inducted into the Pro Football Hall of Fame this past weekend? He gave an emotional speech that touched on his teammates, and showed the passion he has for not only football, but life. He will of course be remembered as a Dallas Cowboy but he did play his last two years for the Cardinals in Phoenix where I lived at the time. He was gracious enough to take a couple pictures with my boys at Cardinals training camp. It turned out that I was fortunate enough to do business with him. He and his wife bought Sprint smartphones from me as the 2004 season started.

Yes he was dazzling, yes he was an amazing athlete, and yes he now holds many NFL football records. But he cares deeply for his family and gives so much back to the communities where he lives and loves doing it. He and his wife Pat formed their own charity. Using proceeds from high-impact events featuring first-class entertainment, Pat and Emmitt create experiences and distribute grants to high-quality non-profits providing underserved children with arts, education, and health and wellness programs.

In addition to financial support, they help its grantees run more efficiently by connecting them with complementary

It seems strange but as I hold my Blackberry next to this EVO, the Blackberry seems old. Do not get me wrong, I love Blackberry but the Android system is really pushing wireless technology much faster. It truly is amazing how these devices are connecting our lives for the better. We literally have the web on our fingertips now, everywhere we go, and it is easy to view. I remember 10 years ago when we were told that phones would be web capable, and we laughed. Well that is not so funny anymore.

Mikes Mobile Minutes-

I wanted to share a couple apps for the EVO.

- 1- Norton Security- I can remote lock/wipe/unlock the device with this app if the device is lost or stolen.
- 2- Quick office- I can save PDF, excel, or word docs and view quickly on an Android with this app. The user interface of this device actually makes it very easy to open and read a document.
- 3- Voice recorder app- I can record a brief message and email the message to anyone in my address book.
- 4- Color notes- Pen and paper? Why? I find it far easier to walk in to a client's office and take an electronic note on an Android than to carry pen and paper with me.

community based organizations and the corporate community. With their foundation, it is all about helping the kids. What I love about Emmitt is he uses his status and his connections to do great things for others. He is a class act. Emmitt you are what is right about sports.

"I wouldn't do that, mister . . . Old Zeek's liable to fire that sucker up."

The first person that answers these 5 questions will win a Motorola ROKR Bluetooth speaker for their vehicle. Good luck.
